

B2B SOURCING GUIDE

Sourcing Made Simple.

Your trusted partner for nationwide furniture,
building material and interior sourcing from China.

CASA TRIO · FOSHAN, CHINA · 2026

WHO WE ARE

More Than a Sourcing Agent.

CASA TRIO is a Foshan-based interior and furniture sourcing studio, serving professional buyers, designers, contractors, developers and hospitality projects worldwide.

We combine deep supply chain knowledge with project-level coordination. Unlike traditional trading companies that simply connect buyers and factories, we manage the entire sourcing process — from requirement analysis and supplier identification, through negotiation, quality control, packing and logistics coordination.

Our team is based in Foshan — China's furniture and building material capital — giving us direct access to thousands of manufacturers, showrooms and material markets across the country.

Our design and sourcing studio in Foshan

"We don't aim to give you more choices. We aim to give you better choices."

WHY CASA TRIO

The Difference That Matters.

For B2B projects, we offer nationwide sourcing across China — not limited to a fixed factory network. Here's what sets us apart:

01**Nationwide Sourcing**

We search across China based on your specifications, target price and quantity — not limited to a small factory list.

02**Real Factory Visits**

We physically visit and evaluate every factory we recommend. No online-only sourcing, no unknown suppliers.

03**Price Transparency**

Clear procurement agency fee structure. You see the factory cost and our service fee separately — no hidden markups.

04**Project Management**

One dedicated point of contact for your entire project. We coordinate factories, timelines, QC and logistics — you don't have to.

05**Quality Control**

Multi-stage inspection: material check, production follow-up, pre-shipment full inspection, and packing verification.

06**Design for Manufacturability**

We work with your design team to ensure every specification is sourceable and manufacturable in China — within your budget.

OUR PROCESS

6 Steps from Requirement to Delivery.

01 Requirement Analysis

We start by understanding your project: product specifications, quantities, target price, quality standards, timeline and destination. You provide drawings, photos, BOQ or reference images — we handle the rest.

02 Nationwide Sourcing

Our team searches across China — Foshan, Dongguan, Shenzhen, Hangzhou, Yiwu and more — to identify suitable manufacturers. We evaluate production capability, quality level, price range and capacity before recommending any supplier.

03 Comparison & Quotation

We provide 3–5 qualified options per product category, with detailed comparison: factory profile, specifications, pricing, MOQ, lead time and sample availability. You make informed decisions — we provide the data.

04 Negotiation & Sample Confirmation

We negotiate pricing, terms and production details on your behalf. We arrange sample development and shipping for approval before mass production begins. No production starts until you confirm the sample.

05 Procurement & Production

Once samples are approved, we coordinate production across multiple factories. We manage timelines, follow up on progress, and resolve any production issues — so you don't have to communicate with dozens of suppliers.

06 QC, Packing & Delivery

Pre-shipment quality inspection for every order. Professional packing with foam, corner protectors and custom wooden crates. We coordinate container loading, shipping and provide all documentation for customs clearance.

PRODUCT CATEGORIES

Everything You Need,
One Partner.

We source across all major interior product categories — from furniture and building materials to lighting, hardware and custom joinery.

Category	Products	Key Regions
Furniture	Sofas, dining sets, beds, wardrobes, cabinets, outdoor furniture, office furniture, hotel furniture	Foshan, Dongguan, Shenzhen
Building Materials	Tiles, marble, granite, engineered stone, flooring, wall panels, doors, windows, sanitary ware	Foshan, Quanzhou, Chaozhou
Soft Furnishings	Curtains, rugs, cushions, bedding, table linens, decorative accessories, artwork	Hangzhou, Yiwu, Shaoxing
Lighting	Chandeliers, pendant lights, wall sconces, table lamps, floor lamps, outdoor lighting, smart lighting	Zhongshan, Shenzhen
Hardware & Fittings	Door handles, hinges, drawer slides, faucets, shower sets, bathroom accessories, cabinet hardware	Wenzhou, Kaiping, Foshan
Custom Joinery	Custom cabinets, kitchen cabinetry, built-in wardrobes, wall paneling, millwork, custom furniture	Foshan, Dongguan
Home Appliances	Kitchen appliances, HVAC, smart home systems, audio-visual equipment	Shenzhen, Qingdao, Hefei

Don't see your product category? Contact us — if it's made in China, we can source it.

QUALITY CONTROL

Quality Before Every Shipment.

We conduct quality control at multiple stages — not just a final check. Every item is inspected before it leaves the factory.

I

Material & Raw Component Check

Before production begins, we verify materials, fabrics, finishes, hardware and components match your approved specifications. No production starts with unapproved materials.

II

Production Follow-up

Our team visits factories during production to monitor progress, workmanship and quality. We catch issues early — before they become expensive problems.

III

Pre-Shipment Full Inspection

100% inspection of every item before packing: dimensions, materials, workmanship, finishes, functionality, structural integrity and appearance. Detailed photo report provided.

IV

Packing & Loading Supervision

We verify proper packing methods: foam wrapping, corner protectors, custom wooden crates for fragile items. We supervise container loading to ensure proper handling and load planning.

QC Documentation

Every inspection includes a detailed report with photos, measurements and pass/fail status. You receive the full QC report before the balance payment is due — so you only pay for products you've approved.

LOGISTICS & DELIVERY

From Factory Floor to Your Door.

Professional container loading supervision

We coordinate the entire logistics process — from packing and container loading to shipping and customs documentation.

01 Consolidation & Warehousing

We collect products from multiple factories and consolidate them at our warehouse in Foshan. This allows us to optimize container loading and reduce shipping costs.

02 Container Loading Supervision

We supervise every container loading: proper load planning, weight distribution, fragile item placement, and securing cargo. Documented with photos and video.

03 Shipping Coordination

We work with reliable freight forwarders to arrange sea freight (LCL or FCL), air freight or rail transport. We compare rates, transit times and reliability.

04 Customs Documentation

We provide all required documentation: commercial invoice, packing list, bill of lading, certificate of origin, fumigation certificate, and product-specific certifications.

PRICING MODEL

Transparent.
Predictable. Fair.

For B2B projects, we work under a clear procurement agency fee structure. No hidden markups, no surprise costs — you always know what you're paying for.

Cost Breakdown

Cost Component	Description
Product / Factory Cost	The actual ex-factory price from the manufacturer. We share the factory quotation with you — no markup hidden in the product price.
Procurement Agency Fee	Our service fee for sourcing, negotiation, project management, quality control and logistics coordination. Calculated as a percentage of the total order value, based on project scope and complexity.
Sample Costs	Factory sample fees and sample shipping costs. Many factories refund sample fees upon bulk order confirmation.
Packing & Crating	Custom wooden crates, reinforced packing and special handling for fragile or oversized items.
Shipping & Insurance	Freight cost (sea/air/rail) plus optional shipping insurance. You may also arrange your own freight forwarder if preferred.
Third-Party Inspection	Optional. If you require SGS, BV, Intertek or other third-party inspection, we arrange it at actual cost.

Our agency fee is quoted upfront based on your project scope. You know the total cost before you commit — no surprises, no hidden fees.

Payment Terms

FACTORY NETWORK

Nationwide Access, Curated Quality.

For B2B projects, we source across China — working with factories in every major production region. Every factory we recommend has been physically visited and evaluated by our team.

Key Sourcing Regions

Region	Specialty	Product Categories
Foshan	Furniture capital of China	Upholstered furniture, dining sets, custom cabinetry, tiles, sanitary ware, lighting
Dongguan	Solid wood & high-end furniture	Solid wood furniture, bedroom sets, office furniture, custom millwork
Shenzhen	Modern design & smart home	Modern furniture, smart home systems, appliances, electronics
Zhongshan	Lighting capital	Chandeliers, pendant lights, decorative lighting, outdoor lighting
Hangzhou / Yiwu	Textiles & home accessories	Curtains, rugs, cushions, bedding, decorative accessories, artwork
Quanzhou / Chaozhou	Stone & ceramics	Marble, granite, engineered stone, ceramic tiles, sanitary ware
Wenzhou / Kaiping	Hardware & sanitary fittings	Door hardware, cabinet fittings, faucets, shower sets, bathroom

PROJECT EXPERIENCE

Projects We've Delivered.

Selected project types we've supported — from private residences to commercial and hospitality spaces.

Private Villas & Residences

Complete home furnishing packages for high-end residential projects — custom cabinetry, furniture, lighting, soft furnishings and building materials.

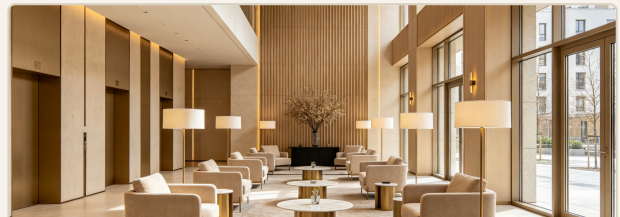

Hotels & Hospitality

Furniture and FF&E procurement for hotels, resorts and serviced apartments. Custom millwork, guest room furniture, lobby pieces and lighting.

Restaurants & Cafés

Commercial furniture, custom seating, lighting, tabletop items and decorative elements for F&B projects. Custom-designed banquettes and dining furniture.

Residential Developments

Bulk furniture and FF&E packages for residential developers — show flats, model units, common areas and bulk unit furnishing with volume pricing.

Offices & Commercial Spaces

Office furniture, custom workstations, meeting room furniture, reception areas and decorative elements. Ergonomic seating and custom millwork.

Retail & Showrooms

Custom display fixtures, retail furniture, lighting, signage elements and decorative items for retail spaces and brand showrooms. Custom display shelving.

WHO WE SERVE

Built for Professional Buyers.

We work with professionals who need reliable, transparent sourcing from China — without the complexity of managing dozens of suppliers.

Interior Designers

Source products that match your design specifications and budget. We help you find manufacturable alternatives, manage custom production, and ensure every piece meets your design intent.

Contractors & Builders

Reliable sourcing for building materials, custom joinery, fixtures and finishes. We coordinate delivery timelines with your construction schedule and manage quality across multiple suppliers.

Developers

Volume furniture and FF&E packages for residential and commercial developments. Consistent quality across multiple units, competitive volume pricing, and coordinated delivery to project sites.

Hospitality Projects

Custom FF&E for hotels, resorts, restaurants and cafes. Custom millwork, commercial-grade furniture, lighting and decorative elements — with the durability standards commercial spaces require.

Retailers & Importers

Product sourcing for retail and wholesale buyers. We identify manufacturers, negotiate pricing, manage quality control, and handle export documentation — so you can focus on selling.

Procurement Managers

An extension of your procurement team in China. We handle supplier identification, comparison, negotiation, production follow-up and QC — giving you on-the-ground support without the overhead.

FAQ

Frequently Asked Questions.

What's the minimum order value for B2B sourcing?

We handle projects of all sizes — from single custom pieces to full-building FF&E packages. For very small orders (under USD 2,000), we may recommend working through our residential team or suggest consolidated shipping to reduce logistics costs.

How long does the sourcing process take?

For standard products, we typically provide 3–5 supplier options within 3–5 business days of receiving your requirements. Custom products or specialized categories may take 7–10 days. Production lead times vary by product category — typically 25–50 days after sample approval.

Can I visit the factories before placing an order?

Absolutely. We encourage factory visits — it's the best way to verify quality and capability. We can arrange a China Sourcing Visit: factory appointments, local transportation, interpretation and product selection assistance. We'll plan the itinerary based on your project requirements.

Do you provide samples before mass production?

Yes. We always recommend sample approval before mass production. We arrange sample development, coordinate any modifications, and ship samples to you for approval. Many factories refund sample fees upon bulk order confirmation.

What if products don't pass quality inspection?

If products fail our pre-shipment inspection, we work directly with the factory to resolve the issues — rework, replacement or adjustment. No shipment is released until products pass inspection. You receive the full QC report before the balance payment is due, so you only pay for approved products.

Can I use my own freight forwarder?

Yes. You're welcome to use your own freight forwarder for shipping. We'll coordinate with them for container loading and documentation. Alternatively, we can recommend reliable forwarders and compare rates for you.

Do you handle customs clearance at destination?

We provide all required documentation for customs clearance (commercial invoice, packing list, bill of

GETTING STARTED

Start Your Sourcing Project.

Getting started is simple. Here's what we need from you to begin.

Step 1: Submit Your Requirements

Send us your project brief — the more detail, the better. Useful information includes:

- **Product specifications** — drawings, photos, BOQ, reference images, dimensions, materials, finishes
- **Quantities** — per item and total project volume
- **Target price** — if you have a budget range, share it. This helps us identify the right quality tier.
- **Timeline** — when do you need products delivered?
- **Destination** — delivery country and port/city
- **Quality standards** — any specific certifications, compliance requirements or quality expectations

Step 2: We Respond with a Sourcing Plan

Within 1–2 business days, we'll respond with:

- Initial assessment of your requirements
- Recommended sourcing strategy and timeline
- Procurement agency fee quote based on project scope
- Any questions or clarifications needed

Step 3: We Begin Sourcing

Once you approve the plan and fee structure, we begin nationwide sourcing. You'll receive regular updates and the first round of supplier options within 3–5 business days.

No commitment required to submit an inquiry. We'll assess your project and provide a transparent quote — you decide if we're the right fit.

CONTACT

Let's Source Together.

Ready to start your sourcing project? Reach out with your requirements — we'll respond within 24 hours with a transparent assessment and quote.
